

iphone 4s Sorethumb: ok, restart pc and press f12 to get the boot options menu then in there you can either boot it normally or in uefi mode EriC^^ I'll try that. If it doesnt work I'll be back. ok EriC^^ Alright, I've restarted. EriC^^ It didn't show anything. Sorethumb: ok, no more live usb EriC^^ It simply goes to the screen with ubuntu and the orange loading dot. ok, try nomodeset EriC^^ Alright. Sorethumb: did it give an error? EriC^^ Nope. Sorethumb: try to get the live usb working to see if you can get a working kernel and an os EriC^^ That's what I did. ok, try the live usb Sorethumb: hold shift EriC^^ Nah, it just goes back to the same thing, only without the loading dot. oh Sorethumb: did you already try to get a working kernel and os? or try to get the live usb working? (2nd time) EriC^^ Live usb didn't work, Kernel didnt work. I can access grub though. EriC^^ The first time it didnt work. i see press left shift to get the grub menu, and then highlight the ubuntu entry, press e to edit it and add nomodeset to the
