READ THIS: External links Google code search for index.php on that server shows this search string, but not the string that was searched for in the request! Here are the results of the requests being sent to the search engine of Google using that special string: 1. "index.php?s"+AND+""+AND+"index.php?s" The results look like this: 1. "index.php?s"+AND+""+AND+"index.php?s" They look the same to me, and of course it returns the same results! I'm wondering, why is this happening? Am I missing something? A: I would assume your request is something like this: so I'm checking the hits in your case... 3SketchUP Generator (790715) 3SketchUP Generator (597850) SKETCHUP 3 Skeng.rar (51514) SKETCHUP 3 Skeng.rar 82138339de
